

PROBIO

GET SMART ABOUT PROBIOTICS

LifeVantage® ProBio uses delayed-release capsules to time-release live bacteria deep in your gastrointestinal tract to support healthy digestion—the smart way to take probiotics. With beta-glucans added to enhance and support your natural immune system response, you get full-spectrum support in your journey toward a healthy gut and happier life.*

Product Info

YOUR GUT COULD BE WRONG

When it comes to digestive health, sometimes your gut is wrong. Science, on the other hand, is usually spot on. And according to research, a healthy digestive system needs the right amount of beneficial bacteria to help you feel your best.

ProBio is the scientific answer to gastrointestinal health, giving you the right balance of probiotics and immune system support to keep your body on track.*

STRAIGHT TO THE GUT

LifeVantage ProBio uses technology to deliver 6 strains of beneficial bacteria deep into your gut where they're needed. Its 6 billion CFUs of friendly bacteria are accompanied by beta-1,3/1,6-glucans from baker's yeast to support your immune system. This promotes a healthy balance in your microflora that you need to support a healthy body.*

Science

THE SCIENCE BEHIND SMART PROBIOTICS

Maintaining the balance of good bacteria in your gut is important to maintaining good health. That's why LifeVantage chose naturally derived probiotics delivered by delayed-release capsules to give you the support you need. Combined with clinically proven beta glucans to encourage optimal immune system health, LifeVantage ProBio uses the natural potency of probiotics to support your journey to a healthier self.

ProBio delivers 6 billion CFUs of healthy bacteria and each strain of bacteria has a unique benefit. Probiotics are measured in colony forming units (CFU), which is a measurement of healthy live bacteria. Using a broad array of probiotic strains provides you with a spectrum of benefits for your gut.

More is not always better—especially when it comes to probiotics. Having a balanced amount of probiotics that are alive when they arrive in your gut is more important than the quantity you ingest. That's why LifeVantage ProBio uses delayed-release capsules to deliver live probiotics deep into your small and large intestines.

Delayed-release capsules — This delayed-release, vegetarian capsule delivers naturally derived probiotics deep into your gastrointestinal tract. It survives the acidic environment in the stomach while ProBio makes the journey through your digestive tract. This ensures that your probiotics get to your small and large intestines—where they're needed most.*

Beta-1,3/1,6-Glucans — Clinically proven to support the body's natural immune response, this healthy yeast beta glucan supports year-round energy and health for all ages. It boosts your immune system without overstimulating it—ensuring you don't add unnecessary stress to your system.*

Probiotic Strains — These beneficial probiotic strains help support healthy digestion, immune function, and wellness*: *Lactobacillus acidophilus* La-14, *Lactobacillus paracasei* Lpc-37, *Lactobacillus acidophilus* NCFM, *Lactobacillus rhamnosus* GG-AF, *Lactobacillus rhamnosus* HN001, and *Bifidobacterium animalis subsp lactis* Bi-07.

Directions

Take 1 capsule daily with a full glass of water.
