## GET SMART ABOUT PROBIOTICS

LifeVantage® ProBio uses BIO-Tract® to time-release probiotics deep in your gastrointestinal tract to support healthy digestion—the smart way to take probiotics. With Wellmune® added to enhance and support your natural immune system response, you get a full-spectrum ally in your journey toward a healthier weight and happier life.\*

### Product Info

---

#### YOUR GUT COULD BE WRONG

When it comes to weight management and digestive health, sometimes your gut is wrong. Science, on the other hand, is usually spot on. And according to research, a healthy digestive system needs the right amount of beneficial bacteria to help you feel better and break through dieting plateaus.

ProBio is science's answer to gastrointestinal health, giving you the right balance of probiotics and immune system support to keep your body on track.\*

#### STRAIGHT TO THE GUT

LifeVantage ProBio from LifeVantage uses BIO-Tract® controlled-release technology to deliver 6 strains of beneficial bacteria deep into your gut where they're needed. Its 6 billion CFUs of friendly bacteria are accompanied by Wellmune® to support your immune system—promoting the healthy balance in your microflora that you need to transform your body and life.\*

- Features BIO-Tract®, a unique controlled release technology, delivering probiotics throughout the day and deep into your digestive system—where they are needed most\*
- Helps improve tight junctions and the communication between your brain and gut to help signal that you are full\*

## Science

### THE SCIENCE BEHIND SMART PROBIOTICS

Maintaining the balance of good bacteria in your gut is important to maintaining good mental and physical health. That's why LifeVantage chose naturally derived probiotics delivered by BIO-Tract® controlled-release technology to give you the support you need. Combined with clinically proven Wellmune® to encourage optimal immune system health, LifeVantage ProBio uses the natural potency of probiotics to support your journey of uncovering a healthier self.

ProBio delivers 6 Billion CFUs of healthy bacteria and each strain of bacteria has a unique benefit. Probiotics are measured in Colony Forming Units (CFU), which is a measurement of healthy live bacteria. Using a broad array of probiotic strains provides you with a spectrum of benefits for your gut. More is not always better—especially when it comes to probiotics. Having a balanced amount of probiotics that are alive when they arrive in your gut is more important than the quantity you ingest. That's why LifeVantage ProBio uses BIO-Tract® controlled-release technology to deliver live probiotics deep into your small and large intestine.

**BIO-Tract®**—This patented, controlled-release technology delivers naturally derived probiotics deep into your gastrointestinal tract. It releases beneficial bacteria over a 10-12 hour period while ProBio makes the journey through your digestive tract. This ensures that your probiotics get to your small and large intestine—where they're needed most.\*

**Wellmune®**—Clinically proven to support the body's natural immune response. This healthy yeast beta glucan supports year-round energy and health for all ages. It boosts your immune system without overstimulating it—ensuring you don't add unnecessary stress to your system.\*

**Probiotic Strains**—(Lactobacillus plantarum, Lactobacillus acidophilus, Bifidobacterium lactis, Lactobacillus casei, Lactobacillus rhamnosus, Bifidobacterium)—beneficial probiotic strains to help support healthy digestion, immune function and wellness.\*

## Directions

Take three caplets daily with a full glass of water.
