HAND CREAM

## EXCEPTIONAL BY NATURE.

TrueScience Hand Cream is the perfect blend of Nrf2 ingredients and natural moisturisers (plant-based oils, ingredients and naturally derived PCA) that give your hands the hydration and protection they need without all the grease that you do not need. TrueScience Hand Cream is long lasting and fast-absorbing, so you can use your hands to do more than simply reach for more lotion.

### Benefits

#### TrueScience Hand Cream

leaves your skin feeling soft and silky while protecting it with Nrf2 ingredients and powerful moisturisers. Used daily, TrueScience Hand Cream can help:

#### FIGHT

the signs of premature aging on your hands

#### BOOST

the water and lipid content of your skin

#### REINFORCE

your skin

#### INVIGORATE

with a fresh grapefruit and eucalyptus fragrance

### Directions

01

#### DISPENSE

the amount you want to use onto clean hands and rub them thoroughly until it is absorbed.

02

#### APPLY

throughout the day as needed.

### Ingredients
