## Get Smart About Pro+.

Long-term gut health and weight management go hand in hand. Pro+ uses proven ingredients, BIO-tract® time-release technology, and Wellmune® to give your body the support it needs.

### The Science Behind Smart Pro+

The balance of healthy and harmful bacteria in your gut is a delicate one that affects your mental and physical health. That's why LifeVantage chose naturally derived Pro+ delivered by BIO-Tract® controlled-release technology to give you the support you need. Combined with clinically proven Wellmune®, Pro+ supports your journey towards uncovering a healthier self.

### Your Gut Could Be Wrong

Intestinal disorders contribute to our general discomfort and stress—but many don't know they have a problem. Our whole digestive system is governed by a complex ecosystem of helpful and harmful bacteria. When the harmful bacteria take over, it leads to gastrointestinal discomfort, a low performing immune system, trouble losing weight, and stress that may increase intestinal permeability.

Increased intestinal permeability may lead to undigested food, bacteria and toxins getting into our blood stream. This can cause more stress and fatigue in your body and can send wrong signals to your brain—making you think you are still hungry when you're already full.

#### MODE OF USE:

Take 3 caplets daily with a full glass of water.

### Benefits

- Provides 6 Billion CFUs of healthy bacteria to give your body the support it needs
- Wellmune is a clinically proven natural yeast Beta Glucan
- Features BIO-Tract®, a unique controlled release technology, delivering healthy bacteria throughout the day and deep into your digestive system—where they are needed most

PRO+

### It Can Get Worse Before it Gets Better

Our stressful lifestyles come with harmful side effects from poor diet, lack of exercise and sleep—disturbing the healthy bacteria balance in our guts. Live bacteria may help restore that balance but most live cell products don't make it to your gastrointestinal tract— they get dissolved in the acidic environment of your stomach. But, there's a smart way to get them past this obstacle.

### Straight to the Gut

Pro+ delivers 6 Billion CFUs of healthy bacteria and each strain of bacteria has a unique benefit. The unit of measurement is Colony Forming Units (CFU), which is a measurement of healthy live bacteria. More is not always better—having a balanced amount of healthy bacteria that are alive when they arrive in your gut is more important than the quantity you ingest. That's why Pro+ uses BIO-Tract® controlled-release technology to deliver live cells deep into your small and large intestine. Its 6 billion CFUs of friendly bacteria are accompanied by Wellmune®, a natural yeast Beta Glucan to transform your life.

### Healthy Bacteria Strains

*Lactobacillus plantarum, Lactobacillus acidophilus, Bifidobacterium lactis, Lactobacillus casei, Lactobacillus rhamnosus, Bifidobacterium*

Wellmune® is a registered trademark of Kerry Luxembourg S.A.R.L. BIO-tract® is a registered trademark of Probi USA, Inc.
