

PROBIO

GET SMART ABOUT PROBIOTICS

When it comes to digestion health, sometimes your gut is wrong. Science, on the other hand, is usually spot on. With over 6 Billion CFUs of healthy bacteria, ProBio provides support for your optimal digestion.

Product Info

STRAIGHT TO THE GUT

LifeVantage® ProBio uses ingredients to timerelease probiotics deep in your gastrointestinal tract to support optimal digestion—the smart way to take probiotics.

ProBio delivers 6 Billion CFUs of healthy bacteria and each strain of bacteria has a unique benefit. Probiotics are measured in Colony Forming Units (CFU), which is a measurement of healthy live

bacteria. Using a broad array of probiotic strains provides you with a spectrum of benefits for your gut. More is not always better—especially when it comes to probiotics. Having a balanced amount of probiotics that are alive when they arrive in your gut is more important than the quantity you ingest. That's why LifeVantage ProBio uses controlled-release technology to deliver live probiotics deep into your small and large intestine.

Benefits

- Provides 6 Billion CFUs of healthy bacteria to support your digestive system
- Restores your gut flora with healthy bacteria
- Support for optimal digestion
- Maintain or support digestion or assimilation of nutrients
