EYE SERUM

EYE OPENING SCIENCE.

By minimizing the appearance of dark circles, fine lines, and delicate wrinkles, TrueScience Eye Serum takes a refreshing and new approach to bringing out the best in your eyes. Your eyes make the first impression. Unfortunately, they're also the first to show signs of aging. When your eyes look bigger and brighter, so does your soul. From firmer looking skin to reducing the appearance of puffiness and dark circles, TrueScience Eye Serum delivers the delicate attention that your eyes need and deserve to look and feel their best.

Directions

01
DISPENSE

a small amount onto the back of your hand.

02
APPLY

using your ring finger and gently tap the serum around both eyes. Apply on upper and lower eyelids.

03
FREQUENCY

Use morning and evening

Do you have sensitive skin?

If so, it's recommended that you test the cream on your forearm before using it on your face. Apply a small amount to your inner forearm. If skin shows no reaction after a few minutes, apply to face or eyes as directed.
