HAIR CARE SYSTEM

WHAT IS THE TRUESCIENCE HAIR CARE SYSTEM?

The TrueScience Hair Care System is designed to give biohackers hair care that's good for their hair and the environment. It consists of three separate products: our Scalp Serum, Invigorating Shampoo, and Nourishing Conditioner.

WHY DID LIFEVANTAGE DEVELOP THE TRUESCIENCE HAIR CARE SYSTEM?

Because Biohackers everywhere need a hair care solution that is clean, safe, and focuses on the beauty of your hair. We formulated TrueScience Hair Care with Nrf2 ingredients, effective science, and a clean formula that introduces the first-ever hair care system designed by biohackers, for biohackers.

DOES THE TRUESCIENCE HAIR CARE SYSTEM CONTAIN NRF2 INGREDIENTS?

You bet it does. The TrueScience Hair Care system was mindfully formulated with Nrf2 ingredients (which are complimentary to, but different than the TrueScience Beauty System).

WHAT MAKES THE TRUESCIENCE HAIR CARE SYSTEM UNIQUE?

Nrf2 science and a unique formulation designed to reduce the amount of harsh chemicals by using cleaner ingredients make the TrueScience Hair Care System truly one of a kind.

ARE ALL THE INGREDIENTS IN THE TRUESCIENCE HAIR CARE SYSTEM NATURAL?

Most of the active ingredients are plant-based. Invigorating Shampoo is 98.9% naturally derived. Nourishing Conditioner is 94.8% naturally derived. And Scalp Serum is 98.65% naturally derived.

IS THE TRUESCIENCE HAIR CARE SYSTEM SCENTED?

Yes. And it smells great. The Invigorating Shampoo, Nourishing Conditioner, and Scalp Serum fragrances come from essential oil from peppermint and hint of thyme.

DO THESE PRODUCTS CONTAIN ANY ADDED PARABENS, GLUTEN, SILICONES, PHTHALATES, BUTYLENE GLYCOL OR ARTIFICIAL COLORS?

No.

DO THESE PRODUCTS CONTAIN ADDED ANIMAL DERIVATIVES?

No.

ARE THESE PRODUCTS SUITABLE FOR ALL HAIR TYPES?

You bet. They work on any head of hair.

ARE THESE PRODUCTS NON-GMO?

Yes, these products are non-GMO.

CAN I USE THE HAIR CARE SYSTEM IF I HAVE A SOY ALLERGY?

Because TrueScience Scalp Serum contains soybean oil, anyone with a soy allergy should avoid using it. However, the soybean oil used in the Scalp Serum is protein free. If you have an allergy, and still want to use it, test product on the inner forearm before using it on your scalp. Apply a small amount to your inner forearm. If no reaction occurs after a few minutes, apply to scalp as directed.

CAN I USE THESE PRODUCTS EVERY DAY?

Yes, Invigorating Shampoo and Nourishing Conditioner are great for everyday use or periodically based on individual needs. We also recommend using the Scalp Serum every day – or even twice a day for the best results.

CAN I USE THESE PRODUCTS ON CHEMICALLY TREATED HAIR?

Go for it. These products are safe to use on chemically treated hair.

HOW DO I GET A LIST OF INGREDIENTS FOR THESE PRODUCTS?

We've listed all the ingredients on each product. You can also check them out online under the product detail pages.

HOW DO I APPLY THESE PRODUCTS?

Scalp Serum - Apply a small amount of TrueScience® Scalp Serum onto towel-dried hair or directly onto dry scalp. Gently massage into the scalp until the serum has been evenly absorbed. Do not rinse out. For best results, use twice daily. If your scalp feels too greasy, apply before bedtime followed by TrueScience® Invigorating Shampoo and Nourishing Conditioner in the morning.

Invigorating Shampoo - Apply desired amount of TrueScience® Invigorating Shampoo to wet hair and scalp. Massage into scalp and ends of hair. Rinse well. Repeat if needed. Follow with TrueScience® Nourishing Conditioner.

Nourishing Conditioner - Apply desired amount of TrueScience® Nourishing Conditioner to washed and damp hair. Massage into scalp and ends of hair. Leave in for 2 to 3 minutes. Rinse well. Repeat if needed.

IS THE HAIR CARE SYSTEM PATENTED?

The ingredients are individually patented, but the overall system is not.

CAN I USE THE HAIR CARE SYSTEM IF I HAVE A SKIN CONDITION ON MY SCALP?

Please consult with your physician prior to using the hair care system.

IF I HAVE A SENSITIVE SCALP, CAN I USE TRUESCIENCE HAIR CARE SYSTEM?

If you have a sensitive scalp, test each product on your inner forearm first. If no irritation occurs after a few minutes, you're all good.

WHERE IS THE TRUESCIENCE HAIR CARE SYSTEM MANUFACTURED?

Each product is manufactured in the U.S.A.

DO THE HAIR CARE PRODUCTS LOSE POTENCY AND EFFECTIVENESS AFTER THEIR EXPIRATION DATE?

Great question. Since we can't guarantee quality after the expiration date, we don't recommend using them after they expire.

CAN I RECYCLE THE PACKAGES?

It depends on your area. The Scalp Serum box is absolutely recyclable. Tubes are made of LDPE material (Low-Density Polyethylene) and marked 4. The Caps are made of PP (Polypropylene) and marked 5. Check with your local recycling authority before throwing them away.
